PROFILE

Graduate Programmer Analyst from Duoc UC, trained in Full Stack development, process automation, and data analysis. Hands-on experience with Java, Spring Boot, React, TypeScript, SQL, and API development, along with MasterBase® MCCR certification and B2 English proficiency. Currently strengthening skills in Excel, Power BI, and data analysis. Profile driven by continuous learning, problem-solving, and collaborative teamwork, with interest in software development, QA Automation, and Data Analysis.
